

NTHE 2026

National Talent Hunt Exam 2026

Discover Today, Lead Tomorrow !

A Landmark Initiative by EBEC India

ABOUT NTHE 2026

Welcome to NTHE 2026

National Talent Hunt Exam 2026 (NTHE 2026) is a premier online talent identification examination designed for students of classes 6 to 10 across India. Organized by EBEC India. NTHE 2026 aims to discover, recognize, and reward young talent through a fair, transparent, and accessible online platform.

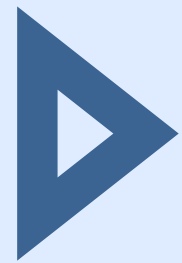

Unlike traditional exams that focus solely on academic scores, NTHE 2026 evaluates students across three key dimensions – Science, History, and Logical Reasoning – providing a holistic assessment of a student's knowledge, analytical ability, and problem-solving skills.

NTHE 2026 is built on the belief that talent is universal, but opportunity is not. Through affordable pricing, massive prizes, and future-ready skill courses, we are creating a level playing field for every student.

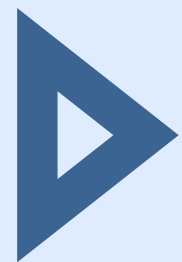

VISION & MISSION NTHE 2026

Vision

"To create a India where every talented student, regardless of their economic background or location, gets a fair opportunity to shine, grow, and build a successful future."

We envision a future where talent is the only currency that matters – not money, not connections, not geography.

Mission

"To identify, recognize, and nurture young talent across India through a fair, affordable, and future-ready online examination platform that rewards merit and builds essential skills for tomorrow."

EXAM OVERVIEW

The National Talent Hunt Exam 2026 (NTHE 2026) is an online, AI-proctored talent search exam for students of classes 6 to 10, organized by EBEC India. The exam will be held on 11th October 2026 and features 100 questions (Science, History, and Logical Reasoning) for a total of 200 marks over 2 hours, with +2 for correct answers and –0.5 for incorrect answers. Results will be announced on 16th October 2026, and the grand prize ceremony will take place on 25th October 2026 in New Delhi. The registration fee is ₹999, which includes exam access, a free ebook, and a free 7-day AI foundation course. Winners across 200 ranks per class receive amazing prizes, including a laptop + ₹2.5 lakh for the 1st rank, along with tablets, smartwatches, bicycles, and cash rewards – with 1,000 students winning prizes in total.
